

CorrosionX

Xhaust & Soot Remover

Product Description

Concentrated Aircraft Surfaces Cleaner / Degreaser.

This powerful, concentrated, multipurpose aircraft cleaner / degreaser was specially formulated to clean the toughest exhaust soot, belly grime and bug splats – all while being gentle on all aircraft surfaces. Biodegradable, non-flammable, non-corrosive, non-toxic

- Meets BOEING D6-17487 Revision P
- Super-concentrated
- Economical
- Water soluble
- Nonflammable
- Will not harm rubber,
- For plastic or metal

Application Suggestion

Trucks, aircraft incl. helicopters tails.

Boats, ships, ferries around exhaust exits, seating areas.

Around genset exhaust and ventilation from commercial kitchens.

Direction of use

Spray, brush or wipe on. Can be added to power washer tank. Dilute according to the extent of soot needing to be removed. Leave wet on the surface for up to 30 minutes or as long as it's wet to save scrubbing. Agitate if necessary and re-apply or wet with water to reactivate dried areas. Rinse well with water. Biodegradable product.
